

INDEX

Index

International Journal of Anatomy and Research 2014; 2(3): 451.

When the Left is left !

Asha J Mathew, Biju Urumese, Tintu TS, Seema Valsalane.

International Journal of Anatomy and Research 2014; 2(3): 452-455.

Undescended Testes: Embryological and Clinical Importance: A Case Report.

Veena Vidya Shankar, Roopa Kulkarni.

International Journal of Anatomy and Research 2014; 2(3): 456-458.

Numbers Matter: Clinical Significance of Additional Belly of First And Second Lumbrical Muscles of The Hand.

Tintu TS, Asha J Mathew.

International Journal of Anatomy and Research 2014; 2(3): 459-461.

On the Variations of Cervical Dermatomes: A Review

Henrietta Redebrandt Nittby, Tom Bendix.

International Journal of Anatomy and Research 2014; 2(3): 462-469.

Injuries to the Spine Mechanics : Anatomical and Orthopedic Aspects.

Ashfaq ul Hassan, Altaf Hussain, Ghulam Hassan, Sajid Shafi, Rahil Muzzafar, Zahida Rasool, Muneeb ul Hassan.

International Journal of Anatomy and Research 2014; 2(3): 470-473.

Prevalence and Variations of Cartilago Triticea.

Mohini M Joshi, Subhash D Joshi, Sharda S Joshi.

International Journal of Anatomy and Research 2014; 2(3): 474-477.

Morphological and Morphometrical Analysis of The Vermian Fossa In Dry Adult Skulls of Western Uttar Pradesh Population: An Osteological Study.

Aravind Yadav, Ketu Chauhan, GL Nigam, Archana Sharma, Anjoo Yadav.

International Journal of Anatomy and Research 2014; 2(3): 478-480.

Langer's Axillary Arch and Its Clinical Implications.

Jyothi K C, Anupama K, Shailaja Shetty, Radhika P M.

International Journal of Anatomy and Research 2014; 2(3): 481-484.

Left Common Carotid Artery Arising From Brachiocephalic Trunk : A Case Report.

Supriya Jainapur, Nirmala D, G F Mavishettar.

International Journal of Anatomy and Research 2014; 2(3): 485-488.

Atrial Septal Defect In A 50 Years Old Male Presenting As Oblique Septal Canal That Appeared to Be Regulated By Five Luminal Bands.

Ainory Peter Gesase, Gabriel J. Mchonde, Alfred Meremo, Mange Manyama.

International Journal of Anatomy and Research 2014; 2(3): 489-493.

A Rare Case of Prolapsed Omphalomesenteric Duct with Ruptured Umbilical Hernia.

Satish Jain, Monica Jain, Indersain Gupta, R P Singhal.

International Journal of Anatomy and Research 2014; 2(3): 494-496.

Morphological Study of the Basilar Artery in Adult Human Cadavers.

Harish A. Wankhede, Hosmani P.B., Dipti A. Nimje.

International Journal of Anatomy and Research 2014; 2(3): 497-502.

A Case Report on High Origin of Radial Artery.

Vaishali Bondage, Anju Balaji More, S.D. Gangane.

International Journal of Anatomy and Research 2014; 2(3): 503-506.

Comparative Morphological and Anatomical Study on Thymus Gland of Human and Primate

P. Devi Raja Rajeswari, K. Aruna, Raja Sankar S.

International Journal of Anatomy and Research 2014; 2(3): 507-510.

Bifurcation Levels of the Common Carotid Arteries: A Cadaveric Study in South Indian Population.

K.Radha.

International Journal of Anatomy and Research 2014; 2(3): 511-514.

Role of Ischio-Pubic Index in Sex Identification from Innominate Bones in North Indian Population.

Kanika Sachdeva, Rajan Kumar Singla, Gurdeep Kalsey.

International Journal of Anatomy and Research 2014; 2(3): 515-520.

Meroencephaly.

Abhijeet Yadav, Mukul Yadav.

International Journal of Anatomy and Research 2014; 2(3): 521-523.

Role of Ilium In Sexual Dimorphism of Hip Bone: A Morphometric Study In North Indian Population.

Kanika Sachdeva, Rajan Kumar Singla, Gurdeep Kalsey.

International Journal of Anatomy and Research 2014; 2(3): 524-532.

Analysis of the Height of Origin of Profunda Femoris Artery from the Femoral Artery with Regards to the Inguinal Ligament.

Sugin Glen Baisil J, V. Anitha.

International Journal of Anatomy and Research 2014; 2(3): 533-536.

Anomalous Origin of Left Vertebral artery Arising from the Arch Of Aorta and Its Embryological Basis.

Surya E, V. Anitha.

International Journal of Anatomy and Research 2014; 2(3): 537-540.

Presence of Large Bilobed Thymus In Adult Male Cadaver.

V.N.Susimitha Sri, V.Anitha.

International Journal of Anatomy and Research 2014; 2(3): 541-544.

Congenital Foramen In the Body of Sternum.

Bermio V.S, Jos Hemalatha.G.A.

International Journal of Anatomy and Research 2014; 2(3): 545-548.

A Study On Morphometric Measurement Of Volume Of Acetabulum.

Leena Khobragade, P. Vatsalaswamy.

International Journal of Anatomy and Research 2014; 2(3): 549-552.

Prevalence Of Retromolar Foramen In Human Mandibles And Its Clinical Significance.

Meera Jacob, Ramakrishna Avadhani, Bindhu.S, Rani Nallathamby, Meril Ann Soman.

International Journal of Anatomy and Research 2014; 2(3): 553-556.

Anomalous Origin Of Left Vertebral Artery.

Banani Kundu, Ishita Ghosh, Gairik Sengupta, Saibal Bhattacharyya.

International Journal of Anatomy and Research 2014; 2(3): 557-560.

Trifurcation Of External Carotid Artery and Variant Branches Of First Part Of Maxillary Artery.

N. Shakuntala Rao, K. Manivannan, Gangadhara, H. R. Krishna Rao.

International Journal of Anatomy and Research 2014; 2(3): 561-565.

Morphometry Of The Orbital Region: "Beauty Is Bought By Judgment Of The Eyes."

Anil Kumar, Mahindra Nagar.

International Journal of Anatomy and Research 2014; 2(3): 566-570.

Human Embryonic Stem Cells And Their Clinical Relevance.

Takkallapalli Anitha, Sanjay H Kalbande.

International Journal of Anatomy and Research 2014; 2(3): 571-576.

Brachiocephalic Trunk And Left Common Carotid Artery Arising From Aortic Arch As A Single Trunk.

Gangadhara, Ravi Raj K, N. Shakuntala Rao, H. R. Krishna Rao.

International Journal of Anatomy and Research 2014; 2(3): 577-579.

Bilateral Duplication Of Renal Arteries.

Prajakta A Thete, Mehera Bhoir, M.V.Ambiye.

International Journal of Anatomy and Research 2014; 2(3): 580-582.

An Unique Asymmetrical Bilateral Variation Of Renal Artery: Right Sided Early Division And Left Sided Accessory/ Additional Arteries.

More Anju B, Hebbal G V, Rajesh S, Kunjumon PC.

International Journal of Anatomy and Research 2014; 2(3): 583-588.

Persistent Median Artery In The Carpal Tunnel.

Raviprasanna. K. H, Dakshayani K.R.

International Journal of Anatomy and Research 2014; 2(3): 589-593.

Elongated Odontoid Process Of Axis Vertebra.

Prathap Kumar J, Anupama K, Radhika P.M, Komala N.

International Journal of Anatomy and Research 2014; 2(3): 594-596.

Relationship Between The Facial Artery And Sub Mandibular Salivary Gland.

S.V.Venugopal, Venugopal Rao, Ravindra Kumar B, Gargi Bhasin

International Journal of Anatomy and Research 2014; 2(3): 597-600.

Double Cystic Duct: Case Report.

Alizadeh Shabanali, Darabi Mohammad Reza, Ahrari Khadijeh, Baazm Maryam, Alizadeh Mohammad Reza.

International Journal of Anatomy and Research 2014; 2(3): 601-604.
